

DAkkS calibration of new gauge Customized initial calibration

[Link to the website](#)

Product description

The monitoring and calibration of measurement instruments is an important requirement of quality management systems (e.g., ISO 9001, QS 9000). In particular, the traceability to nationally recognized standards must be ensured. VACUUBRAND is accredited by the national accreditation body for the Federal Republic of Germany (DAkkS) as a calibration laboratory for vacuum measuring instruments. VACUUBRAND's DAkkS laboratory is approved to calibrate and certify vacuum gauges in the range from 1300 to 10^{-3} mbar (abs.) and to issue the corresponding DAkkS Calibration Certificates. VACUUBRAND also offers DAkkS calibration as a service for vacuum gauges from other manufacturers.

Performance features

Ordering data

Product name	Nominal mains voltage mains frequency	Plug type	Articleno.
Customized initial calibration			20900220

Items supplied

Customized calibration with first delivery
